# Yesterday to Tomorrow 昨天在明天 Origins & Futures

A two-part lecture, conducted in English.

## The Origins of Interactive Media.

A brief examination of two influential American scientists who pioneered the idea of interactive information systems and graphics. Their research accomplishments resonate through every aspect of modern computing.

## The Boundaries of Research at Parsons.

A brief survey of student and faculty research recently conducted at the Communication Design and Technology department at Parsons The New School for Design.

Examples will explore innovations in the areas of computation, interaction and narrative.
